ahold of their
Dreams.”

- Bethesda Integrated School

What is BIS?

Bethesda Integrated School (BIS) is a school with international standards with a hometown feel. It is situated 1km from Nuzvid and 45 km from Vijayawada.

It is surrounded by greenery and lush mango trees. So the student can breathe in fresh air, free from pollution.

Its classrooms are spacious and well equipped with modern teaching tools. The teaching staff is well qualified and experienced, having a love for children. They not only care about subjects but they also care about each student.

There are several playgrounds, a large sports field and a skating ring for the students.

Bis was founded by Syam Bandi and his wife Melody in 2007 with the soul purpose of bringing quality well round education to children.

They believe every child can learn if given a chance. That school should feel like spending the day with family. Their desire is for children to find the joy of learning that will propel them into their futures.

IX	22000	8000	7000	7000
X	25000	9000	8000	8000

Syllabus

Our syllabus grabs the attention of the students, drawing them in. Practical illustrations and activities that make them want to learn more. Gone are the days of memorizing for an exam. Every student learns to write in their own words what they have learnt about the topic through our integrated teaching styles and activities.

Yet, our syllabus stands out for its high standards and in-depth teaching on each and every topic. Students learn to ask questions and search for answers. They are taught how to think for themselves not what to think.

The syllabus is designed to ensure that students do not face a lot of pressure and books are made interactive and interesting. It makes the whole process of conveying knowledge to the students efficient and healthy.

Our Syllabus not only imparts quality knowledge to the students but also ensures overall physical and mental growth. It encourages students to pursue sports alongside studies, and a lot of emphasis is given on the physical growth of the children. It also teaches the student to be good citizens and above all good human beings.

Extracurricular Activities

BIS Faculty places a high emphasis on self-improvement through competition. Students are actively encouraged to strive to achieve their goals and succeed to their highest capability.

Skating

Roller skating is ranked among the best aerobic exercises according to the American Heart Association. Roller-skating is a workout that involves almost all of the body's muscles and in particular the heart.

Beginner and advanced classes available.

(Skating kits available in the office)

Kung-Fu

Kung-Fu in Chinese means "hard work"). Historically, Kung Fu in China was an integral part in the education of scholars and the leaders of government. The Chinese people placed great value in the practice of Kung Fu because they felt it taught respect, patience, humility, and morality,

Badminton (shuttle)

Osteoporosis can be prevented or delayed by regularly playing badminton, as physical activity is one major factor that prevents osteoporosis, irrespective of the age and gender of the individual. Playing badminton promotes the activity of the bone forming cells and help in the assimilation of calcium in the bone matrix, thereby strengthening it.

Basketball

Basketball is a great cardiovascular workout. You are running and jumping and that really works the heart and lungs.

Team work!

Basketball is all about working together to a common goal. A life long skill that your child will use forever.

Volleyball

Volleyball requires that teammates work cooperatively, and at a fast pace.

Team members also learn to value and respect their fellow team members.

The cooperation volleyball requires in the game carries benefits at the office.

Study author Michael Lechner noted that regular team players earned more Annual income.

Dance

For centuries, dance manuals and other writings has laude the health benefits of dancing, usually as physical exercise. More recently we've seen research on further health benefits of dancing, such as stress reduction and increase serotonin level, with its sense of well-being.

The School Day

The School day begins at 8:30 and ends at 3:50 Monday through Saturday, Sundays are holidays. Every 2nd Saturday is a holiday except during revision weeks and exam weeks, as noted in the school calendar.

Assembly/ drill for all classes will be held on Wednesday and Saturday, lead by a different class each time. The leading class is given on the calendar.

The student of the given class may display their given talent at this time.

Schedules may be changed by management at any time

Parents that wish to feed their children may come in the slotted time. There is a designated area for parents to feed their children.

No one is allowed to go to the classes

Hostel

Hostel

Hostel seat are available for more information contact the office.

Welcome to hostel students

We wish to welcome you to your home for the next year. We look forward to lots of activity, lots of work, and lots of fun. We are committed to helping you in any way that we can. If you ever need someone to talk to, feel homesick, or just plain want to get something off your chest...we are here.

We would like the hostel to be a place where you can feel relaxed and truly at home. However, you must have some basic guidelines.

Respect will be the key to making everyone's stay here a great one! Respect implies recognition of a person's worth or value. What does this mean in practical terms? Basically, it means that you need to be considerate of others... their feelings, their belongings, their need for quiet and so on. For our helpers, it means respect for their work... not leaving clothes on the floor, returning things to their proper place, picking up your belongings, not leaving food or drinks on the counter, the living area or in your rooms. Respect for us means respect for the hostel rules.

Homework and Projects

At BIS, we believe in teaching students to take responsibility for their own learning. This is reflected through our teaching methods, in which students are taught to solve problems and think, look up an answer and consult others and finally ask the teacher. We also set regular independent learning tasks.

We encourage the students to read (a story) any thing that interest them for 20 minutes or more each day, thus building up vocabulary, getting some quiet and reflective time, and learning to enjoy the written word.

Homework

- ✓ It may involve a number of tasks that support the student's learning in each subject.
- ✓ The students are required to record the homework in their diary.

Projects

- ✓ Projects are required by all class and will be given throughout the year.
- ✓ They will have different levels of difficulty.
- ✓ They are to help the student develop creativity and problem solving skills.

Homework and projects as well as attendance have a percentage of the students' total grade/marks.

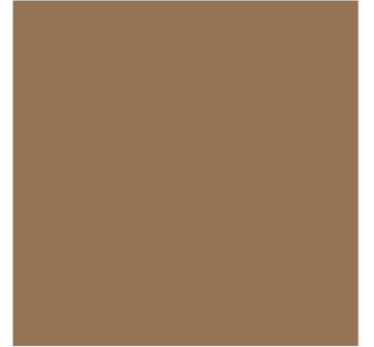

Progress Reports

The Progress report shows at what level the student is studying. It shows the effort or lack of effort the student is putting forth, not what their full potential is. We use it as a gauge to encourage students to focus and reach for higher attainment.

- ❖ Progress reports will be issues 7 times in the year.
- ❖ Progress reports will not be given to the students.

Progress Days

- ❖ Parents/Guardians are to come and pick up the progress reports.
- ❖ Progress reports will only be given on the dates given.
- ❖ Teacher will be available to talk with at this time
